VISION

Building a problem-free society

MISSION

At Solutions Hub, we believe that the sky is the limit. Therefore, we have adopted the mission of paving the road of success to all those who strive for it by providing our clients with the top-quality consulting, training, and software services that exceed their expectations.

VALUES

We find value across boundaries, develop insights to act upon, and energize teams to sustain success. We're passionate about always doing the right thing for our clients, our people, and our communities, even if it isn't easy.

Our Core Values:

- Sustainability
- Transparency and Integrity
- Creativity and Innovation
- Excellence and High Quality
- Customer Satisfaction
- Learning and Continuous Improvement

*At Solutions Hub
we depend on our creativity and
resourcefulness to find the unexpected,
yet most practical ways to
solve problems.*

OUR SERVICES: CONSULTING

Today's fast-paced, complex business environment dictates the need to adopt robust on-going strategic planning by companies regardless of size, sector, or location.

Our consulting services aim at helping our clients capitalize on their competitive strengths, enabling them to achieve the highest return on their strategic decision areas that are critical for their success.

We combine international awareness with local perception to provide our clients with the best possible solutions to their business threats.

We realize that change is never easy, but it is extremely important.

We work across process, people, and technology to make change a reality for the long term. We focus relentlessly on the benefits of transforming a business.

We work across the organization, offering business-oriented and data-driven solutions to drive your transformation agenda to achieve high impact, sustainable business results.

OUR SERVICES: TRAINING

Our training and educational programs are designed according to the needs of our clients and on best practices, tailored with case studies and interactive exercises to create a satisfying, fruitful learning experience.

We offer a range of training and educational programs in harmony with high standards and quality. We provide trainings in the following areas:

Business Strategy

This course focuses on how organizations create, capture, and maintain the value and sustainable competitive advantage.

The trainee will be able to understand value creation and learn the tools needed to analyze both competition and cooperation from a variety of perspectives, including the industry level and the firm level. Understand how managers coordinate different functional areas, resources, and systems inside a company and align them with the external environment to enhance overall performance.

Moreover, the trainee will gain Knowledge of strategic management tools and frameworks and their application to real business contexts. Furthermore, the trainee will be introduced to diverse business processes and strategic issues to evaluate alternatives and formulate a coherent and actionable strategic plan.

OUR SERVICES: TRAINING

Quality Management

This course aims to provide the trainee with the foundations and principles of quality management philosophies and frameworks that impact the quality management practices worldwide.

Moreover, it provides the trainee with the skills to build, develop, and sustain effective quality management and performance excellence culture within her organization.

The course is designed to take the trainee from opportunity identification through launch, growth, financing, and profitability. Overall, the course aims to help trainees develop an entrepreneurial mindset to build a new enterprise.

Students' Development Programs

Solutions Hub ensures to provide the highest quality support for all students enrolled in its educational courses. Our team of highly qualified and certified teachers will guide you at every stage of your study journey.

OUR SERVICES: SOFTWARE

Partnering and collaborating with the global leading company Demand Solutions to provide complete, end-to-end supply chain management solutions, technology, and services.

Since 1985, Demand Solutions has been providing software for the full spectrum of supply chain management – inventory planning, sales & operations planning (S&OP), demand planning and forecasting, collaboration, inventory optimization and replenishment, advanced planning & scheduling and retail planning.

Demand Solutions products are affordable, easy to implement, easy to use, and deliver fast ROI. Demand Solutions software helps enterprises of all sizes reach their planning goals.

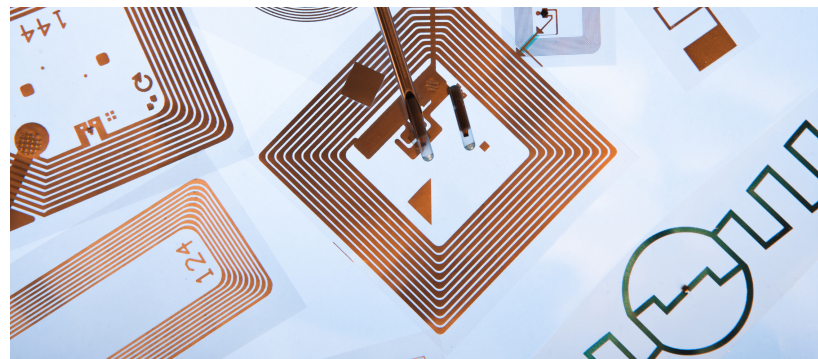

OUR SERVICES: RFID TECHNOLOGY

Solutions hub provides a turnkey RFID-driven solutions platform which enables businesses to digitize their physical products and assets. We provide a choice of building blocks to create secure digital identities for each instance of these in the Cloud, and provides the means to authenticate, track, sense, and engage customers, partners, and employees through the value chain.

Our Internet of Things (IoT) and RFID-driven solutions help you track end to end; giving you visibility, traceability and freedom from error-prone manual processes. Our solutions automate activities that previously would have been done by hand. Enabling you to quickly and inexpensively keep on top of your inventory and assets, identify bottlenecks, follow work in progress and prepare and deploy your products for shipment.

The benefits of RFID-driven solutions are virtually unlimited. Just think about:

- Optimizing your manufacturing and supply chain by tracking every single product with item-level granularity and turning demand visibility into allocation efficiency
- Maintaining inventory accuracy of close to 100%, avoiding stock outs with rapid replenishment, instantly locating misplaced items, and preventing product loss
- Driving customer engagement and loyalty through broadening and maintaining brand conversation throughout the product lifetime
- Enhancing brand protection through consumer-based product authentication
